

Active network of cancer control experts enables cooperation

An active network of European cancer control experts already exists according to the network analysis carried out by the Cancon Dissemination work package. The network includes governmental, NGO's and hospitals/health care providers; people who are involved in Cancon.

Hello guest, welcome to
Cancon extranet!

Cancon extranet is meant for storing documents and working with them. All nine work package have their own section here.

Each section is divided into two parts: documents in progress and finished documents. You can easily download documents into extranet so that they are available for other work package members. You can send a link to the document to partners via email.

When the document is finished, you can move it to the finished section. Before this change the document format into pdf file so that no one can edit the document.

Select work package to discover and modify documents »

01 COORDINATION
02 DISSEMINATION
03 EVALUATION
04 GUIDE COORDINATION
05 MEMBER STATE PLATFORM

Printable Cancon brochure ready

"The brochure is inviting and colourful", was one of the comments we received on the brochure. Thank you all for your comments, after small adjustments the brochure is ready for printing. Printed brochure will be distributed in meetings held in Milan. If you need more than twenty pieces, please let me know by email cancon@cancer.fi
